

# Research-Led Learning and Teaching

## Remit

### Remit

- Scope current practices across Schools;
- Drawing on the Universitas 21 work, develop the University's narrative regarding how its research strengths enable it to offer programmes underpinned by research-led teaching and learning, with a particular focus on the University's undergraduate degree programmes;
- Develop a framework to enable Schools to evaluate the extent to which their programmes are delivering research-led teaching and learning, and instigate pilots of the framework in a small number of programmes;
- Identify barriers to and enablers of research-led teaching and learning, and feed them into the strand of work on fostering and embedding innovation (see above); and
- Consider the merits of developing a community of practice around research-led teaching and learning and an increased web presence on research-led teaching and learning and the research/teaching nexus.
